About me

I am an **IT undergraduate at the University of Moratuwa,** currently working as a **Junior Software Engineer and Business Analyst at Pearl Matrix Solutions.** Alongside my academic and professional experience, I am the **owner of ART BY PRAMU**, an art gallery and shop where I specialize in creating customized portrait art to clients worldwide.

With a unique blend of skills in IT, business analysis, and the arts, I am eager to contribute to innovative, cross-disciplinary projects.

Projects

Hardware Project

Rhyme FIT – An Interactive Rhyme Jacket for Children

- Real-time motion tracking using sensors to control a 3D model in a web interface. Rhythmic Synchronization: To progress in the game, the child must sync their movements with the rhythm of the rhyme song.
- Heart rate and temperature monitoring to ensure children are healthy enough to participate.
- An interactive game (Web site) that combines exercise and learning, fostering both physical and mental development.

E-commerce Website

MerchMora – Comprehensive E-commerce Platform

- Collaborated with a dedicated team to design and develop MerchMora, a comprehensive e-commerce website, as part of an academic assignment.
- Demonstrated proficiency in web development and design, contributing to the website's functionality and user-friendly interface.

Client Website Development

Pearl Matrix Solutions (PMS)

- Developed and delivered responsive, user-friendly websites for multiple clients under the guidance of senior engineers.

Travel & Visa Passport Service Website

Tech-Triathlon 2024 by Rootcode

- Developed an engagement website focused on travel and visa passport services to promote tourism in Sri Lanka, participating in the designathon, hackathon and datathon events.
- Contributed to the project through designation and teamwork, enhancing skills in web development and service design.
